# IT Support & Network Specialist

(m/f/d)

## Do you want to join a people-centric organization where growth, stability, and human values truly matter?

At Tubex we are entering a dynamic phase of expansion, and to support this strategic growth, we are seeking a dedicated new IT Support & Network Specialist colleague who will play an important role in our journey.

Join us and help shaping the future of a company where progress is shared, people are valued, and every day offers the opportunity to make a meaningful impact.

### Our new colleague's tasks are:

- Own and improve network infrastructure (switches, routers, VLANs, Wi-Fi), ensuring security and high availability.
- Manage Windows clients, Active Directory, Group Policies, file access, and PowerShell automation.
- Handle deployment and support of end-user devices, conferencing systems, and network hardware.
- Maintain IT asset management, documentation, and incident resolution processes.
- Support virtualization, backup, and cloud solutions (VMware, Veeam, Microsoft 365, Azure, Intune, Autopilot).
- Lead industrial IT projects involving smart devices, RFID/barcode, and IoT systems.
- Advise business teams on IT solutions and mentor junior colleagues when needed.
- Strengthen cybersecurity and ensure compliance with global IT standards.

### You are the perfect candidate for this mission if you have:

- **Network & System Administration:**
  - Strong knowledge of TCP/IP, DNS, DHCP, VLAN concepts and basic routing
  - Experience configuring switches and routers (TP-Link Omada / Unifi / Cisco or similar)
  - Operating and maintaining Wi-Fi networks, including guest networks and WPA2-Enterprise environments
  - Practical understanding of physical networking: UTP cabling, basics of optical cabling, patch panels, rack layout
- **Windows Environment:**
  - Installation, configuration and troubleshooting of Windows 11 client systems
  - Basic Windows Server knowledge: Active Directory, Group Policy (GPO), file server and permission management
  - Basic PowerShell usage (running scripts, executing simple commands)

Join our Team:

# IT Support & Network Specialist

(m/f/d)

## • Hardware Knowledge:

- Setup and troubleshooting of PCs, laptops, printers, and conferencing equipment
- Configuration and basic troubleshooting of network printers
- Basic configuration of UPS devices and network equipment

## • Documentation & Administration:

- Maintaining accurate and up-to-date IT asset inventory
- Documenting incidents and change management processes precisely
- Experience working with a ticketing system

## • Preferred Skills (Advantages)

- Server & Virtualization: Basic VMware ESXi / vCenter knowledge, experience with backup solutions (e.g., Veeam)
- Advanced Networking: VLAN design, trunk port configuration, Omada/Unifi controller management, basic firewall knowledge
- Microsoft 365 / Azure: User account management, SharePoint/OneDrive basics, Autopilot/Intune experience (highly preferred)
- Industrial IT Environment: Deployment of touchscreens, displays, TVs, integration of RFID/barcode readers

## Personal Skills

- Excellent problem-solving abilities
- Precise, documentation-focused work style
- Strong communication skills with production, maintenance, and office teams
- Responsible, independent work attitude
- Ability to work effectively in a team
- High level of IT security awareness

## Shape your future and your career with us. Enjoy every day...

- Competitive compensation based on your experience and market standards.
- Long-term stability and security, supported by Tubex's steady growth and its position as one of the world's leading packaging manufacturers.
- People-focused culture where your ideas and work truly matter.
- Innovative and sustainable environment with career growth opportunities.
- Modern workplace in the scenic Mátra region.
- Supportive team atmosphere built on collaboration and respect.
